INNOVATION IN DESIGN 008 - FRONT

In writing, identify the intent of the proposed innovation credit, the proposed requirement for compliance, the proposed submittals to demonstrate compliance, and the design approach (strategies) that might be used to meet the requirements.

INNOVATION IN DESIGN 002 - REAR

To provide design teams and the projects the opportunity to be awarded points for the exceptional performance above the requirements set by the LEED Green Building Rating System and/or innovative performance in Green Building categories not specifically addressed by the LEED Green Building Rating System.

INNOVATION IN DESIGN 001 - REAR

There is no standard referenced for this credit

INNOVATION IN DESIGN 004 - REAR

Substantially exceed a LEED performance credit such as energy performance or water efficiency. Apply strategies or measures that demonstrate a comprehensive approach and quantifiable environment and/or health benefits.

INNOVATION IN DESIGN 003 - REAR

At least one principal participant of the project team shall be a LEED Accredited Professional (AP)

INNOVATION IN DESIGN 006 - REAR

To support and encourage the design integration required by a LEED-NC Green Building project and streamline the application and certification process.

INNOVATION IN DESIGN 005 - REAR

There is no standard referenced for this credit

INNOVATION IN DESIGN 008 - REAR

Educate the project team members about the green building design & construction and application of the LEED Rating System early in the life of the project. Consider assigning the LEED AP as a facilitator of integrated design & construction process.

INNOVATION IN DESIGN 007 - REAR
